.....fire safety is our business

9LT WATER FIRE EXTINGUISHER

Guardian water extinguishers are ideal for premises. They offer excellent fire fighting capability on freely burning materials such as wood, paper and cloth. Guardian 9lt water model is manufactured and certified to the British and European Standard BS EN3: 1996; carries a BSI Kitemark; and is CE marked.

As with the rest of our extinguisher range, this model features rugged, quality construction. The cylinders are high quality, rolled steel which are then heavily powder-coat painted. The valves are nickel-plated brass with steel handles. It has a quality hose, and the extinguisher comes with a steel wall-mounting bracket.
